Status of Corporate Products

Companies come and go and so do products or they get renamed. Hence, if you realize that a product has stopped existing then please provide a comment underneath the Book of the product that indicates what happened to the product. Such a comment can include for instance one of the following topics.

1. Discontinued
2. Sold to company X
3. Renamed to Y

If you are a maintainer then you adjust the status of the project yourself but if not then such a comment will be checked by one of the maintainers and then act upon accordingly.
